# The New Photography

7th October - 2nd November 2006

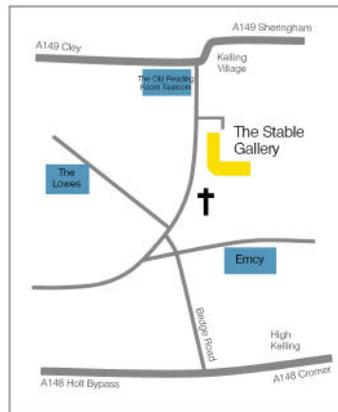

'Future Dreams' Andrew Tatham [www.andrewtatham.co.uk](http://www.andrewtatham.co.uk)

## Kate Barclay & Andrew Tatham

An exhibition from two of the new breed of digital photographers. As well as being able to marry technology with a natural talent for composition, they share a love of the colours to be found in nature. The result is pictures that have an atmosphere outside of two dimensions. Kate has lived in Norfolk for twenty years and during that time has found the big skies and their beautiful light on land and sea a constant source of inspiration. Andrew moved here last year and has been exploring his new environment, focusing close-in on architectural details and the natural world, and then enhancing them digitally to draw out colours and ideas that are hidden to the casual viewer.

**Opening Hours:** Mon-Sat 9.30-5.00, Sun 10.00-4.00
